

ENABLING CONNECTED FEATURES:

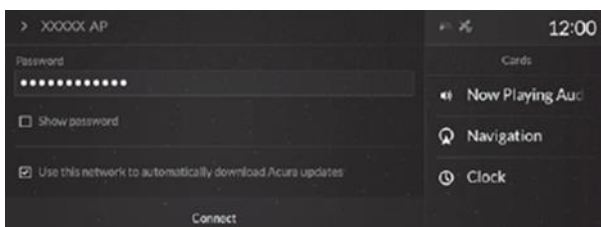

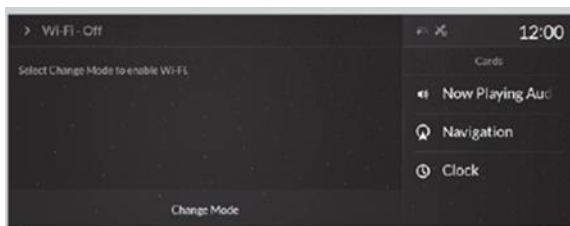

ENABLE CONNECTED FEATURES. This enables your VIN to be recognized on the webstore

🕒 Time: **25 minutes** (Wi-Fi connection/enablement: 10 min. + Confirmation: 15 min.)

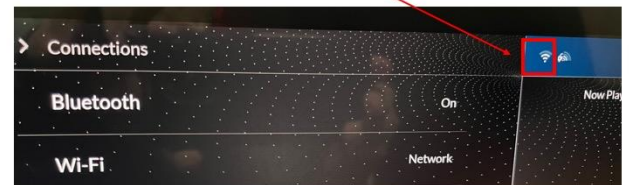

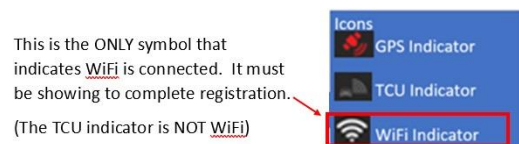

📍 Location: **Your vehicle**

STEP 1

1. Connect your vehicle's navigation system to **Wi-Fi**
 - a) Press the **Home** button
 - b) Select **Settings** → **Connections** → **Wi-Fi** → **Change Mode** → **Network**
 - c) Choose a Wi-Fi network and select **Confirm** → **Connect**
 - d) Enter your Wi-Fi password

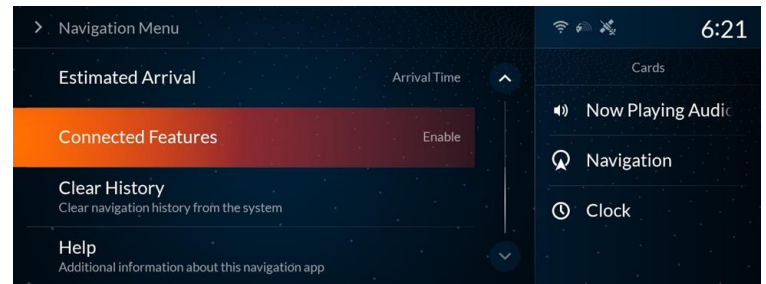

This is the ONLY symbol that indicates Wi-Fi is connected. It must be showing to complete registration. (The TCU indicator is NOT Wi-Fi.)

STEP 2

ENABLE CONNECTED FEATURES

2. Return to **Home** and select **Menu** → **Navigation Menu**
3. Select **Connected Features** to confirm it's enabled*
4. Turn off the engine and wait **10–15 minutes**, then restart your vehicle

NOTE: Depending on the Model/Model Year – the text may show differently:

- RDX 2019-2021 & TLX 2021-2023; MDX 2021: Will typically still show 'Enable' even after it is Enabled
- RDX 2022–2026; MDX: 2022+; TLX: 2024+: Should show 'Enabled'

Steps:
